

National Technician Development Centre

for Higher Education

Chris Turgoose - Business Development & Centre Manager

Karen Bailey-Smith - Specialist Advisor

**CREATING A SUSTAINABLE FUTURE
FOR TECHNICAL STAFF AND SERVICES**

NTDC

What is the National Technician Development Centre?

Launched in December 2017 and Co-funded by the Office for Students, the University of Sheffield, and other partners.

The Centre provides support to UK HE Institutions that will enable them to create a sustainable future for their technical staff and services.

We are currently supporting a number of HEIs with their work in this area, working closely with both the technical community and staff and organisational development colleagues.

Further information about the team and the services it offers can be found on the website

www.nationaltechnicianscentre.ac.uk
